PROFESSIONAL SUMMARY

Artificial Intelligence and Machine Learning graduate with hands-on experience in software development, backend systems, and mobile application development through multiple internships and academic projects. Experienced in Python, Java, Flutter, REST APIs, databases, and cloud deployment on Google Cloud Platform. Strong understanding of data structures, APIs, and real-world application deployment. Seeking an entry-level Software Engineer / Developer role to contribute to scalable application development and backend engineering.

CORE SKILLS

- **Programming Languages:** Python, Java, Dart, C
- **Web & Backend:** Node.js, Express.js, Flask, REST APIs
- **Mobile Development:** Flutter (Android Application Development)
- **Databases:** MySQL, MariaDB, MongoDB, Firebase Firestore
- **Machine Learning:** TensorFlow, Keras, Scikit-learn, Pandas, NumPy
- **Cloud & DevOps:** Google Cloud Platform (GCP), IAM, SQL Instance, Ubuntu, Nginx, Apache, KVM2
- **Tools:** Git, GitHub, Postman, VS Code, Anaconda, Figma
- **Concepts:** Data Structures & Algorithms, OOP, API Integration, State Management | Operating Systems: Windows, Linux (Ubuntu)

WORK EXPERIENCE

Software Developer Intern | Grameen Technologies, Mangalore | Jul 2025 – Present

- Developed a Flutter-based MQTT command parser mobile application and deployed to Google Play Store
- Built a POS desktop application with backend hosted on cloud server and MySQL database on Google Cloud
- Implemented state management, dependency injection, and optimized string processing logic
- Configured Ubuntu server and Nginx reverse proxy for application hosting and deployment
- Worked with GCP services including SQL instance and server management

Flutter Developer Intern | Accolade Tech Solutions, Mangalore | Feb 2025 – Jul 2025

- Developed UI screens from Figma designs for health-based government client applications
- Integrated Flutter frontend with PHP backend and MySQL database
- Deployed applications using Apache server with Nginx proxy configuration
- Improved UI mapping and application usability through responsive layouts

Android App Developer Intern | Niveus Solutions, Udupi | Oct 2023 – Nov 2023

- Worked on backend development using Node.js and Express.js
- Integrated Firebase database into grievance management mobile application
- Implemented REST API middleware and performed API testing using Postman
- Gained understanding of real-world API architecture and backend workflows

---

PROJECTS

Heatwave Analysis and Prediction (Machine Learning Project)

- Technologies: Python, TensorFlow, Keras, Pandas, NumPy, Scikit-learn
- Built an LSTM deep learning model to predict heatwave occurrences using climate data
- Performed data preprocessing, feature preparation, training, and model evaluation
- Generated predictive insights based on temperature and humidity patterns

Virtual Try-On Using Augmented Reality

- Technologies: Python, Flask, OpenCV, PoseNet, MoveNet, MongoDB, HTML, CSS
- Developed a web application allowing users to upload images and try outfits virtually
- Used pose estimation to detect body keypoints and overlay clothing accurately
- Built Flask backend and stored user data in MongoDB database

CERTIFICATIONS

- Data Structures and Algorithms in Java — Udemy (2024)
- Machine Learning — FreeCodeCamp (2024)
- Advanced English Grammar — Coursera (2024)
- Cloud Computing — NPTEL (2023)
- Web Design — FreeCodeCamp (2023)

ACHIEVEMENTS

- Solved 150+ problems on LeetCode (80+ medium/hard)
- Active problem solver on GeeksforGeeks, HackerRank, and Codeforces
- Participant - State Level Codeathon (2024)
- Gold Medal -Inter-college Painting Competition (2023)
- Participant - State Level Chess Masters (2023)

EDUCATION

- B.E. – Artificial Intelligence and Machine Learning | Mangalore Institute of Technology & Engineering, Moodbidri |2021 – 2025 | CGPA: 8.75
- Pre-University | Poornaprajna PU College, Udupi (2019 – 2021) | CGPA: 8.96
- High School |S.V.H English Medium School, Udupi (2016 – 2019) | CGPA: 8.86
